

# BSP 360 Sprint Car Mini Series Rules 2023

BSP 360 Sprint Cars will follow Ohsweken Speedway 360 Rules with the following exceptions.

<http://ohswekenspeedway.ca/wp-content/uploads/2019/01/360-Sprint-Rules-2019.pdf>

- Tires - Right Rear Tire: McCreary/American Racer MC2 or MC3 or the Hoosier HTC and the Hoosier Medium are also allowed.

## **Race Format – Heat and Feature Line Ups**

- Heat Races will be set by hot lap time trials. Drivers will pull to determine what heat race they are placed in and then will hot lap with that group to determine the heat starting positions. BSP will use an invert of 4 for heat races meaning the fastest car in a hot lap group will start 4<sup>th</sup>.
- Feature starting positions will be set up by redraw. If there are two heats the top 4 will redraw for a total of 8, if there are three heats the top 3 will redraw for a total of 9. The remainder of the field will start heads up from their heat finish position.

## **Race Format – Starts and Re-Starts**

- There will be a single cone in Turn 4 and for an initial start both front row cars will fire at the same time at the cone. If a driver is deemed to jump the start, it will be called back, and that offending driver will drop back one full row.
- All restarts will be single file at the cone in turn 4 and a second cone will be at the flag stand. No passing will be allowed until drivers pass the second cone at the flag stand.
- Passing before the cone at the flag stand will be a penalty of 2 positions assessed at the next caution or the end of the race whichever comes first.
